Encounter our Ambassadors

Special Edition

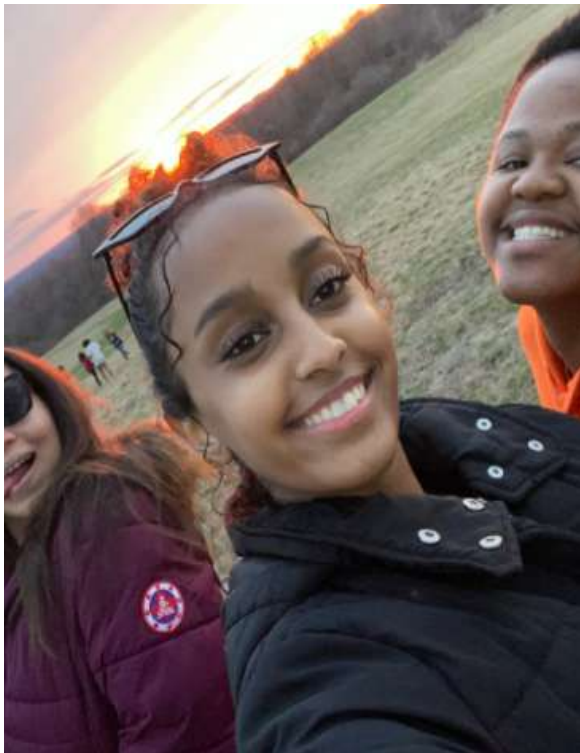

One last look at our senior Ambassadors and their future plans

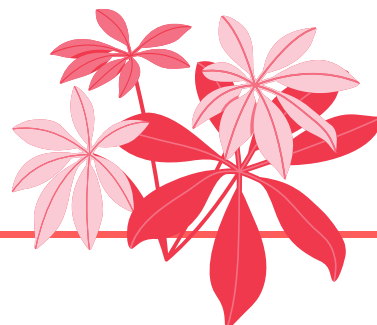

Julia Paulino
Senior from Brazil

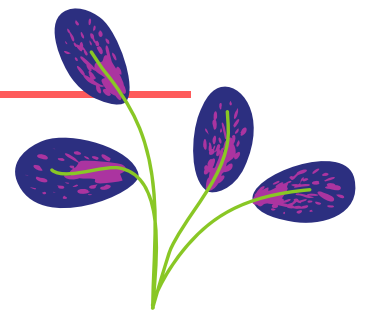

After I graduate from the Academy, I will go back to Brazil. I am planning on spending a lot of time with my family and my friends. Hopefully I will get a driver's license by this time. I definitely will miss my ladies and the special time we spent together. I hope to leave the Academy the energy for the girls to move from girls to women.

Bena Batavia
Senior from Rwanda

When I leave the Academy, I am planning on majoring in Political Science in Arizona. This is a topic I started liking more ever since I came to this school. I wish to leave with the confidence the Academy has made me discover. I will miss my friends. I also wish that the remaining students learned from me that they should not be afraid to speak their mind.

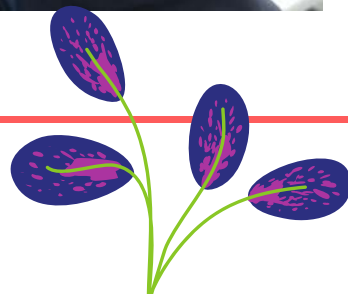

Aithy Ngyuen
Senior from Minnesota

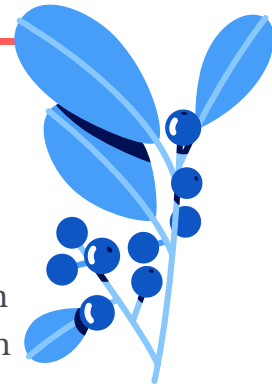

I am excited to officially announce that next fall, I will be attending the University of Minnesota. I will be part of the College of Liberal Arts and will major in journalism. During the summer I will be busy working and finally learning how to drive. The two things I will be taking with me back to Minnesota are the wonderful memories and the Harry Styles drawing Sr. Alexandria made for me. I hope to leave behind a strong and motivated F.I.T. Club and a confident Speech and Debate Club. I am forever grateful for all the opportunities AHF has given me and I am excited what the future holds!

Haley Potesak
Senior from Connecticut

I will be continuing to volunteer at the aquarium as a first responder for their rescue team. I will also be working for a marketing company. I am committed to Eckerd College and will be majoring in Marine Science. The greatest experience that I have gotten from my time here at the Academy is being a leader and a role model to others, as well as hosting events and learning how to manage my time, stress, etc. I hope to leave the energy that radiates off of me and the hardworking personality that never gives up and learns to overcome any obstacles that come their way.

Laura Lacasse

Senior from Connecticut

After I graduate, I'll be majoring in Business Administration at Eastern Connecticut State University and continuing to work at the grocery store. I'm so grateful for the confidence that the girls at AHF have taught me to develop, and I hope to leave the same energy to the school.

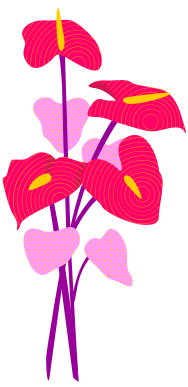

Sarah Charpentier

Senior from Connecticut

My plan after I graduate is to get a full-time job along with my part-time. My goal is to work long days Monday through Friday but have the weekends off to have fun and travel around New England a bit. I'll then be quitting my two jobs and making my way to Costa Rica for the Fall semester through a study abroad program called Verto Education. Following study abroad I'll be transferring into Saint Michael's College up in Burlington, Vermont and I'll be undecided. What I learned through this year was my self-worth. I came to realize that through the right people, I could truly understand and value myself and my accomplishments. These things have added to my personality and built my character and that's what I'll take with me.

Cecilia Vu
Senior from Texas

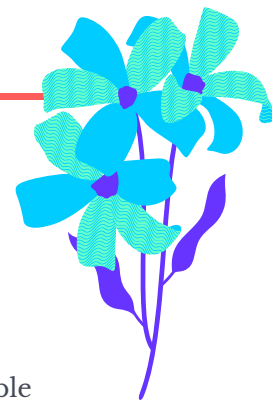

After I graduate from the Academy, I will be spending a lot of my time with my family. My oldest sister was just recently engaged and will be married in July. The summer will be busy as we will have a lot of planning to do for the wedding and for my sister's apartment. I hope to leave the Academy the light of Christ so that this light may radiate the heart of each student and so allow them to be lights to others. I will take with me from the Academy the unforgettable memories of laughter, growth, trials, and joy. This I will cherish most ardently.

Angela Vu
Sophomore from Texas

The summer will definitely be a very busy and fun one! My sister will be getting married, I will be working, and hopefully spend A LOT of time with my family! The greatest experience I have learned from this year at AHF is being a part of so many clubs. I was able to learn so much from the people around me, their ideas, and connecting with students about different things! I was able to see a different side of my peers with the variety of clubs. I have discovered so much about myself and found that I am capable of so many things! I have learned so much from those around me and especially from all the seniors! I will definitely miss them!!

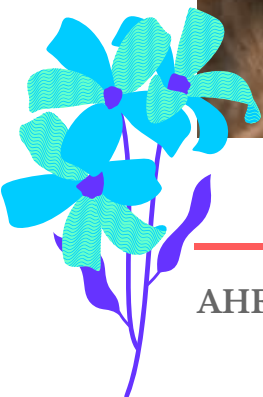

Indi Tshotsho
Junior from South Africa

With a pandemic underway, planning summer hasn't really been easy. If I am able to return to South Africa, I am looking forward to hopefully taking driving lessons, but most of all, spending time with my family and friends. This school year I was able to learn that I hold a great amount of leadership skills. With so many events happening at school, from the student-held retreat to Earth Day, I found myself not only involved in the events, but also leading the students, whether it was setting up Hanlon Hall, or presenting a presentation to the students. I am looking forward to further exploring these skills during my senior year.

Grace Peckham
Junior from Connecticut

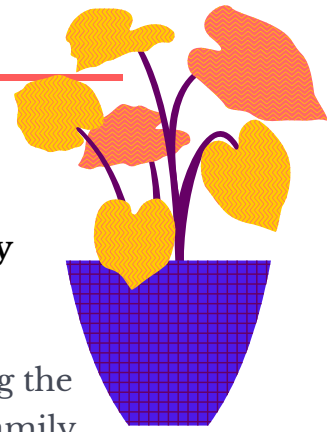

I will be working a lot on my family's farm and I am going to focus on advocating for family farmers. Two of my friends and I have an account called @ctdairygirls that we use on all the social media platforms to share our story about family farming and the importance behind being a farmer. Our accounts have really started to blow up with followers and we are just so happy that people want to hear about farming and what it is like to be farmers. I have learned so much this year at school, but one thing that I have really picked up from school was my confidence and I am hoping that this will help me when advocating for dairy farmers like my family. I can't believe it is already the end of the school year, I will miss everyone so much and I am so thankful for the memories that I have shared with all of the girls here at AHF this year.

Camila
Junior from Georgia (originally from Colombia)

I'm looking forward to spending the summer with my friends and family. I've learned a lot about time management, learning, and being responsible with schoolwork and meetings.

Alice Wang
Senior from China

I will be attending New York University in the Fall. I haven't decided on my major yet, but I think I will spend my first year exploring and see what fits me the most. My plan for the summer is to travel with my friends and hopefully go to a concert. I got my driver's license weeks ago, so now I can officially drive in the city! I guess this four-year journey here at the Academy is one of the greatest gifts of my life. I made friends from all over the world and also got to know all the Sisters, but the greatest of all is that I became a child of God. † I'm super sad that I didn't get to see everyone this whole school year, so please come visit me when you come to New York!!
